

AFTERSALES OPTIONS

Storage space limitations mean that we cannot guarantee to keep the files required for editing or re-editing your wedding video for longer than three months so some of the following options may not be available after that period of time has elapsed.

Extra Discs

As standard we provide five discs (5 x DVD or 4 x DVD and 1 BluRay for HD). If we provide more discs than this we have to pay more for the P.R.S. licence for the use of CopyRight music if your discs include this. For this reason we charge £25 **in addition to** the prices shown below.

DVD Discs

Extra DVD discs in wallets: £3 each plus postage. These are usually available for at least a year after your wedding.

BluRay Discs [High Definition]

If you did not request a High Definition package the first disc costs £50. Extra BluRay discs cost £5 each for each subsequent disc plus postage. These are usually available for at least a year after your wedding.

NTSC DVDs

This DVD format can be read on DVD players in the U.S.A. and Canada.

This costs £20 for the first then £3 per subsequent NTSC DVD disc. This may not be available three months after the editing is complete.

How to order

Simply email us your instructions to info@northhillvideo.com
